FOUR "SILVER" BROKERS ARRESTED

HELD ON CHARGES OF FRAUD

Men Taken Have Been Extensive Advertisers Recently of Silver Stocks

Four well-known State street stock brokers were arrested today on charges of fraudulent advertising: They are: William R. Fitzgerald of William R. Fitzgerald & Company, Nos. 83-85 State street, bankers and brokers; Louis C. Van Riper of New

Following their arrest the police returned to the financial district in search of other brokers said to be wanted on similar charges.

Ten counts were placed against Riper, one against Samuels, against Fitzgerald and four against Carr. The arrests were made under the Statutes of 1911. Chapter 103, which provides that no person shall publish an advertisement of a mining company, dealing with interest or prospective earnings, within sixty days after the filing of a statement.

CHelsea BURN

Chelsea's industrial district was threatened today by a fire which destroyed the burn-pit plant of H. Cutler & Co. at Nos. 85-125 Second street. The adjoining buildings were damaged by water. A general alarm was turned out and the fire departments of Rye and Everett responded.

Scores of tenement houses in the rear of the property were also endangered, and their occupants hurriedly removed their household goods.

The blaze was a difficult one to fight. The burn-pit stored in the warehouse was highly inflammable, and

PRICES TO STAY UP, SAYS GEDDES

Forget About Old Figures. Advises New British Envoy to America

London, March 24.—Auckland (reuter) news, new British ambassador to the United States, will sail early next month, leaving behind him the hope for an early reduction of the price of living in the United Kingdom. Sir Auckland Geddes, who arrived in New York last week, is expected to fall only when Europe has got back on her feet economically. But even when this state of affairs is reached, prices may still be about 15 per cent. higher than they were in 1914, he believes. "We must forget the old price levels. Just as we have forgotten about the extremely low prices that prevailed in the good old days of Queen Victoria," Sir Auckland said. "Until all of Europe returns to their full production, I see no chance for a removal of the severity which now is causing the high prices."

\$810 FOR ERIN IN COHASSET

Bond Drive Highly Successful There as Well as in Medford and Elsewhere

Word was received from Cohasset today that the Irish bond certificate drive is meeting with great success in that town. A committee from Division No. 16, Ancient Order of Hibernians, canvassed the town and collected \$810, which has been turned over to the American Commission on Irish Independence. "This is a very good amount for a small town," writes Theobald McGovern. "If Cohasset had a mere quota to collect the other places the sum would be large." Medford is standing up well for the drive and Charles T. Daly, one of the committee here, reports a large number of \$10 subscriptions today. From every corner word that arrangements are being made for a big rally in the town hall, at which it is hoped to have some of the soldiers from Camp Devens take part. Members of newly formed Friends of Irish Freedom will meet tomorrow evening in Fraternity Town Hall, Milton, and listen to a report from the bond committee. Coleman McDonough, president, and Michael J. Murphy, secretary, are anxious to have all men of Irish birth or extraction in the town attend the meeting, as business of much importance will be transacted.

Who Discovered Ricoro?

Told by a Merchant

"...Economy is getting the most of the best for the least. In other words—Ricoro!"

"The Steward of the Rotary Club is the man you are looking for!" declared the Merchant.

"We were having an 'Economy Luncheon' at the Club one day—paper napkins and various scientific foods doped up by experts to beat the H. C. L. Well, afterward, they brought around some cigars that didn't look economical—and, by George, when we lightened up, they tasted like a million dollars!

"The Chairman, who had prepared a paper on Economy, seemed a bit uneasy when he overheard remarks about the 'expensive looking cigars.'"

"Steward!" he called. "Steward! There's a mistake! This was supposed to be an Economy lunch—and here you've dealt out high-priced cigars."

"Yes, Sir," replied the Steward, "But those Ricoros only cost two for 25c at the United, and—"

"Two for 25cents!" exclaimed the Chairman, "Great guns! I guess that answers the calamity howlers who wail about the dwindling purchasing power of the dollar. Boy, run over to the United and get another box of Ricoros!"

Sooner or later you'll discover Ricoro. You'll discover Ricoro's bland and balmy tropic fragrance—and you'll settle down to it for life. You'll buy Ricoro by the box, just like thousands of other satisfied Ricoro discoverers. And you'll buy it at the price of ordinary domestic cigars, because it comes from Porto Rico duty free!

The United States has expressed its insistence that the Turks must be satisfied with the status quo. It has refused to accept the plea of Mohammedans that it is necessary for the Armenians to have a national home.

Recognition of Armenia and her rights to territory are urged by those who believe that the Armenians are the people to whom the allies give Armenia as much territory as that nation can take care of, and that it is the duty of the allies to give the Armenians a national home, in order that its commerce may not be hampered.

The rights of Russia must be recognized in the settlement of the Turkish question, according to the experts, and the Armenians must be satisfied with the status quo. The nation will not accept any proposal which might endanger the future prospects of Russia.

A fact: During the National Horse Show last fall — considered by many society's most notable function—the best-selling cigarette each day in the smoking-room of Madison Square Garden was Fatima.

Liggett & Myers Tobacco Co.

"Just Enough Turkish"

Fatima's leadership here, where expensive straight Turkish cigarettes were once in vogue, is rather conclusive. It indicates that many smokers no longer judge cigarettes by package or price, but by tobacco. And as a result, more and more of them, the country over, are turning to Fatima's exclusive blend. Expertly proportioned between too much Turkish tobacco and too little, Fatima contains "just enough Turkish" to give perfect balance between the delicate aroma of Turkish and the full body of the Domestic leaf.

Amplifying Chamber.

The sounds carried from the reproducer through the tone arm are given volume and resonance in a scientifically designed amplifying chamber or horn. This chamber is built of carefully seasoned wood, and like the sounding board of a fine violin, imparts to the various sound vibrations the proper amplification. The combination of reproducer, tone arm and amplifying chamber makes every record a true reflection of the personality of the creator.

The Reproducer.

Tone quality is dependent upon the reproducer, tone arm and amplifying chamber. Each must be correctly designed and harmonized in its relation to the other two in order to produce a sweet, pleasing tone free from scratching sounds. The SILVERTONE reproducer accurately restores every sound vibration, every subtle shading of tone and expression. It is so designed that all unwanted and mechanical noises are reduced to the minimum.

Plays All Disc Records.

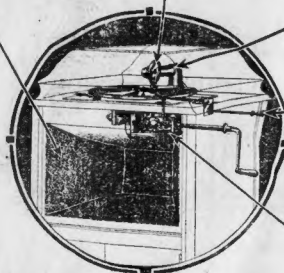

The SILVERTONE convertible tone arm permits the playing of any make of disc record. A universal joint in the tone arm makes it possible to adjust the reproducer at will so that it will play either vertical or lateral cut records. It is almost as easy to adjust the reproducer for different types of records as it is to change needles.

Tone Control.

The tone modulator with which each SILVERTONE is equipped gives complete control over the volume of sound. It serves the same purpose as the doors and shutters used on other makes of phonographs. You may set the modulator at any desired point, thus giving a uniform volume of sound, or the modulator may be manipulated while a selection is being played, thus enabling you to impart your own interpretation to the music.

Powerful, Silent Motor.

The SILVERTONE motor is as near perfect as mechanical and human efficiency can make it. Every part is made and fitted with care and precision and gears mesh silently. Powerful springs furnish an abundance of power, and a perfectly designed governor keeps turntable speed absolutely uniform, eliminating discrepancies which sometimes occur owing to variations in speed. The motor is equipped with a silent winding device and cranks with very little effort.

The Better Phonograph For Less Money

SEVERAL years ago we believed there existed a demand for a good phonograph at a reasonable price and on terms which would bring it within the reach of all. The SILVERTONE was designed and built to meet this demand. By adopting and combining the best features of all the phonographs then on the market, by making such improvements as experience had proved necessary, and by using only the finest materials in its construction, we succeeded in making the SILVERTONE a phonograph of super-quality.

Quantity production, efficient manufacturing methods and our economical mode of selling enabled us to offer the SILVERTONE at a price far below that of any other phonograph of the same quality, size and musical perfection.

The enthusiastic response of our six million customers when we announced the SILVERTONE proved to us that we had indeed filled a long-felt want. Since then over two hundred and fifty thousand of these phonographs have been sold and are giving their owners universal satisfaction and pleasure.

The popularity which the SILVERTONE has enjoyed among our own customers has led us to believe that everybody, everywhere, whether or not they are customers of Sears, Roebuck and Co., will welcome the opportunity to purchase a good phonograph at a reasonable price, and on terms which make it easy for everybody to own one. That is why we are making this liberal offer.

Send No Money

Two Weeks' Trial

Select any SILVERTONE Phonograph shown on this page, fill in the order blank below and mail it to Sears, Roebuck and Co., Chicago, Ill. Send no money with it! We ship SILVERTONE Phonographs on two weeks' trial. This trial will not cost you one cent, nor obligate you in any way. All we ask you to do is to give the phonograph a thorough trial. Examine its mechanical features, cabinet work and finish. Try it with any kind of disc records you desire, and note its beauty of tone, how faithfully and accurately it restores every delicate shading of tone quality, every minute variation of volume, every sound vibration. Give it every test necessary to prove the truth of our claims for it. And then compare the price of the SILVERTONE with that of any other phonograph of the same size, quality and musical excellence. If, at the end of this two weeks' trial, you are not fully satisfied with the phonograph, if you do not believe that mechanically, musically, and in workmanship, material and finish, it is the equal of any other phonograph on the market selling at from 25 per cent to 50 per cent

higher prices, simply notify us and we will take away the phonograph at our own expense, and will return any transportation and cartage charges you have paid.

Small Monthly Payments

If, at the end of two weeks' trial, you are fully satisfied with the SILVERTONE and desire to keep it, send us the price of the phonograph you have selected in equal monthly payments until the total is paid. The amount of the monthly payment is shown under the illustrations of the various models. There is no interest or extras of any kind to pay.

Fill out the order blank today, before this paper gets out of your hands, and let us send you one of these beautiful 1920 SILVERTONE models for two weeks' trial in your home, without having to pay a cent down on the phonograph, and without obligating you in any way. You are to be the sole judge of the quality and value of the SILVERTONE.

Massachusetts in this vital question. Several delegates to speakers to outline the crisis and the steps which the Boston American Tenant League is contemplating to end it have reached the American. Such requests will be filed at once if addressed to Speakers' Bureau, care Rent Editor, Boston American, No. 80 Summer Street, Boston 6, Mass.

The intense active interest which is being taken in the league is shown by the fact that not only are single arguments coming in rapidly, but in many cases volunteer organizers have secured from a dozen to a score of signatures to membership blanks and mailed them in a single envelope.

LANDLORDS AMICABLE. So far not a single dissenting voice has been heard in the campaign, respectable landlords as well as tenants expressing nothing but words of encouragement for the American in this battle to bring about a "square deal" solution to a vital problem of the city. Resolutions supporting the "Hays anti-rent protesting bill," now before the Legislature and protesting against divided responsibility of street car lines within the city limits, were adopted by the Massachusetts Citizens' Association in Gallivan Hall, West Roxbury.

Several Woburn men, prominent in business and local politics, have come out in favor of the American's fight against protesting landlords and in favor of the Hays bill. Mayor Elias T. Golden today organized a committee to investigate rent conditions in the city.

SAYS IN PER CENT, ENOUGH. John T. O'Neil, chairman of the board of assessors for Woburn, said: "As far as I know, there are very few rent protesters in Woburn, but I am heartily in favor of the principles of the Hays bill and the stand the American has taken on the question."

Mr. O'Neil said: "Ten per cent. return on a real estate investment is enough for anybody, and further it is not fair to allow property owners to borrow money at six per cent. from the city and make from 20 to 25 per cent. on their investment."

Collector McLean is conducting a campaign against tax dodgers in Woburn, and he said that there is only one large property owner in that city who has raised rents excessively, and this man has not yet paid his taxes for 1919.

The Boston American Tenant League said: "I am a landlord and I am not blind to your good efforts, for there are landlords who have a soul and are willing to do everything for their tenants. I am one of them. But you should pitch into the banks who have ruined the interest on mortgages and in many instances put landlords to great inconvenience by their actions. They demand 8 to 7 per cent. of us as they make 2 per cent. on our real estate investments in property. We have attempted to treat our tenants fairly, but are being

crushed by the banks and their attitude towards the small investor. "While believing you are meeting a great need in the community of being to check some of these landlords, I know the Boston American is far enough to let some of the landlords explain the situation and who we are blundering."

Representative Herbert A. Grout said: "Allow me to congratulate the American on the effort it is putting forth into the Tenant League, and the position it takes on the Hays bill, which I think is the position for the rent raising bill and which at the same time protects the fair landlord."

ATTORNEY FAVORS PLAN. Attorney Harry N. Outerman, former counsel for the Commission on the Economics of Life, said: "Allow me to offer my congratulations on your splendid piece of public service in organizing the American Tenant League."

The housing problem will only be solved when the State recognizes the duty to help its citizens in securing homes for themselves. Until that time comes, an organization of rent

payors will do much to help the situation."

Lawrence, March 24.—A new system of property valuation to hold certain Lawrence landlords in line will be adopted here when the assessors begin their tour to appraise properties. It will mean a sweeping increase in revenue for the city.

On the assumption that there will be a big increase in valuation the coming spring landlords all over the city are asking more rent. Mayor White, who sanctions the Boston American plan of doubling rent-

able rents, declares that the property owners are taking advantage of the tenants.

Anti-Rent Bill to Be Passed in New York. Albany, N. Y., March 24.—After one of the wildest and noisiest hearings ever held here it was unanimously agreed that the Lockwood-Judson anti-rent protesting bill would be speedily passed. These bills were devised to protect tenants from profiteering landlords.

The bidding delegation of New York City landlords, 330 strong, was out-voted, out-argued and threatened with personal assault by a third delegate as many tenants.

Old Name-New Fame
For Every Social Occasion
Pickwick

THE old "get together" spirit is with us again.

At every occasion the call is for Pickwick. Its dark, pleasing color—the thick, rich, creamy foam—the tang—and delicious familiar flavor call forth genuine enthusiasm—and as the bottles are opened the first toast is "To the return of Pickwick."

It is a real pleasure to be with you again and to offer you such a wholesome beverage.
